Microeconomics II

**Transcript Title**
Microeconomics II

**Effective Term**
Fall 2018

**Catalog Description**
The study of the operation of the economic system taking into account the diversity of goods and services. Primary attention is centered upon the competitive economy. A study is made of the existence, uniqueness, stability, and comparative statics of equilibrium positions. In addition, a study is made of ways of evaluating alternative states of the economy in terms of systems of value judgments. This includes a discussion of the Arrow Impossibility Theorem; the notion of a Pareto-satisfactory process is introduced and the relationship between Pareto-optimal states and competitive equilibrium positions is studied.

**Prerequisites**
ECON 800 and ECON 801.

Does this course fulfill RSRS (Research Skills Responsible Scholarship)?

Will this course be required for a degree, major, minor, certificate, or concentration?
No

We are retiring one of the prerequisites for this course and editing the catalog entry to reflect this change.

Rationale for Course Proposal

Course Reviewer Comments
Gottlob Frege was the founder of the analytic movement in philosophy, having done seminal work in logic, the philosophy of language, and the philosophy of mathematics. This course will focus on his primary texts as well as his influence on present-day studies. PHIL 628 or PHIL 630 or PHIL 638 or permission of instructor.

Typically Offered: Not Typically Offered
Repeatable for credit?: No

Does this course fulfill RSRS (Research Skills Responsible Scholarship)?

No

Will this course be required for a degree, major, minor, certificate, or concentration?

No

Rationale for Course Proposal: Deactivation of ABSC 820 ONLY. PSYC 820 should be retained in its current state

Justification for this request: Class has not been offered since 1995 and our Grad committee has decided to delete it.

Reviewer Comments:
Rachel Schwien (rschwien) (10/03/17 8:32 am): Holding for PSYC confirmation of deactivation. Contacted department 10/2
Rachel Schwien (rschwien) (10/11/17 8:24 am): “Deactivation of ABSC 820 ONLY. PSYC 820 should be retained in its current state”
Rachel Schwien (rschwien) (10/11/17 8:25 am): Rollback: Only deactivating ABSC 820
This is an advanced course on research methods helpful in the development, evaluation, and dissemination of effective and sustainable behavior-analytic programs. The practices examined involve (a) selecting non-reactive measures of staff implementation behaviors; (b) selecting effective and sustainable components of a staff management program; and (c) experimentally analyzing the effectiveness and sustainability of the staff management program. Particular emphasis is placed on the analysis of the principles of behavior that determine the maintenance of staff interventions and, therefore, the survival of behavioral programs in their post-research phase. Students read and discuss the literature on factors that promote or impede program survival. Students design an intervention program using the practices examined in the course, simulate an experimental analysis of the program, and write a JABA-style manuscript describing the program and their simulated data. An ABA-accredited and BACB® pre-approved course. (Formerly HDFL 940.)

Prerequisites
ABSC/HDFL 735 or HDFL 803, ABSC/HDFL 796, and ABSC/HDFL 871 or instructor permission.

Rationale for Course Proposal
Class has not been offered since 2011 and our Grad committee has decided to delete it.

**Catalog Description**

This course investigates the ways in which rhetorical strategies (persuasive and linguistic usage) permeate the relationship between politics and politicians and the mass media. We will analyze media coverage of political debates, the presidential use of radio, television and press conferences, the network evening news coverage of political events, the influence of political advertising to see how political decisions are influenced by and influence the media.

**Catalog Description:**

An overview of the art and cultural history of Kansas (and Kansas City) from territorial days to the present. Emphasis is placed on key issues, figures and events. A general familiarity with American history is recommended. In addition to the lecture sessions taught in tandem with FMS 414, additional research component, lecture presentation, and class meeting are also required.

**Prerequisites:**

None

**Cross Listed Courses:**

None

**Credits:**

3

**Course Type:**

Lecture (Regularly scheduled academic course) (LEC)

**Grading Basis:**

A-D(+/-)FI (G11)

**Typically Offered:**

Not Typically Offered

**Repeatable for credit?**

No

Will this course be required for a degree, major, minor, certificate, or concentration?

No

**Rationale for Course Proposal**

This course will no longer be offered.

**Justification for this request**

This course will no longer be offered.

**Course Reviewer Comments**

The course explores the national cinemas and film industries of various nations in Latin America, as well as films made by indigenous and Chicano/a filmmakers. Films are analyzed both as artistic works (formal qualities, cinematic styles, and influences) and as documents that provide windows to the socio-historical context of the nation. The course focuses on the political-economic factors surrounding the production of Latin American national cinema (the role of the state, co-productions, film markets).

Rationale for Course Proposal

This course has been replaced by FMS316/716: Cinemas of the Southern Cone: Argentina, Chile, and Uruguay.

Academic Unit Department Physics & Astronomy

School/College College of Lib Arts & Sciences

Title Geophysical Data Analysis

Transcript Title Geophysical Data Analysis

Last Term Offered Fall 2017

Catalog Description Fourier analysis, sampling theory, prediction and interpolation of geophysical data, filtering theory, correlation techniques, deconvolution. Examples will be chosen from various fields of geophysics.

Prerequisites MATH 250/AE 250/ARCE 250/CE 250/C&PE 250/EECS 250/EPHX 250/ME 250 and either GEOL 572 or GEOL 573 or PHSX 528.

Credits 3

Course Type Lecture (Regularly scheduled academic course) (LEC)

Grading Basis A-D(+-)FI (G11)

Typically Offered

Repeatable for credit? No

Will this course be required for a degree, major, minor, certificate, or concentration?

Rationale for Course Proposal

I don't know when this course was last taught, but it won’t be taught again in the foreseeable future. I was forced to make a selection above, but that section is false. I suggest you add an 'I don't know' option to the pull-down menu for the last term offered.

Justification for this request

I don't know when this course was last taught, but it won’t be taught again in the foreseeable future. I was forced to make a selection above, but that section is false. I suggest you add an 'I don't know' option to the pull-down menu for the last term offered.

Course Reviewer Comments

Rachel Schwien (rschwien) (10/03/17 9:03 am): holding for confirmation of Geology deactivation

Rachel Schwien (rschwien) (10/03/17 1:20 pm): Per Chris Fischer, Geology is aware and approves of the deactivation.

Course: PUAD 847: Legislative Process

Catalog Description:
This course is designed to acquaint students with the workings of the policy process at the level of state government. Its focus will give students an understanding of the political process to enable them to function more effectively in state policy development and implementation.

Prerequisites:
PUAD 824, PUAD 825, PUAD 826 or PUAD 827.

### Catalog Description

This course offers the student an opportunity to enhance skills developed in PUAD 826 in an experiential learning environment that simulates actual management practice. Complex cases will be rank ordered and resolved on a work schedule developed by each work group. Groups will work simultaneously on two or more cases at all times.

### Prerequisites

PUAD 826.

Genetics of Communication and Learning Disorders

Transcript Title
Genetics Commun&Learn Disordrs

Last Term Offered
Fall 2017

Catalog Description
This course focuses on the description, assessment, and treatment of communication problems associated with particular genetic syndromes (e.g., Down's, Turner's syndromes). Also covered are current data about the genetic factors involved in nonsyndromic communication and learning problems, such as those commonly seen in the schools. Ethical and practical issues in these areas are discussed.

**Program Description**

**Degree Requirements**

**Ph.D. in Behavioral Psychology Degree Requirements**

The doctoral program trains highly competent researchers in applied behavioral science (e.g., applied behavior analysis, applied psychology). Students are taught to discover and produce, translate and apply, and communicate knowledge in the behavioral sciences for understanding and solving problems of individual and societal importance, both local and global. The curriculum requires a sequence of instruction that integrates courses in the basic principles of behavior, experimental methods and research design, and conceptual foundations, but emphasizes course work and training in applied and intervention research (e.g., assessment, analysis, intervention, evaluation). Its objective is to discover and advance empirically based solutions to problems of individual and societal importance, both local and global.

The doctoral program follows a junior-colleague model. Students work closely with their advisors and join them in every aspect of professional development. This includes designing and conducting research, preparing manuscripts for presentation and publication, presenting and publishing those manuscripts, preparing editorial reviews of manuscripts, and engaging in all facets of the responsible conduct of research. Students typically work with 1 advisor, but may work with other faculty members or have co-advisors. If a student’s or advisor’s interests change, students are free to change advisors.

---

**Course Requirements**

The doctoral degree program requires students to take 1 course in 10 areas, along with 2 practicum courses. The areas and the practicum courses are:

- **ABSC 735** Within Subjects Research Methodology and Direct Observation 3
- **ABSC 746** Introduction to Behavioral Science 3
- **ABSC 799** Experimental Analysis of Behavior 3

---

https://next.catalog.ku.edu/courseleaf/approve/
ABSC 800  Conceptual Foundations of Behavior Analysis  3
ABSC 841  Ethical, Legal, and Professional Issues in Applied Behavioral Science  3
ABSC 861  Principles of Behavior Analysis  3

Conceptual Foundations II (Choose 1)
ABSC 901  Analysis of Everyday Human Behavior
ABSC 862  Behavioral Community Psychology
ABSC 931  The Analysis of Verbal Behavior
ABSC 981  History of Behavior Analysis

Research Methods II (Choose 1)
ABSC 710  Community Health and Development
ABSC 805  Functional Behavioral Assessment
ABSC 940  Measurement and Experimental Design for Applied Research

Applied Behavior Analysis II (Choose 1)
ABSC 788  Designing Early Education Environments
ABSC 802  Behavior Analysis in Developmental Disabilities
ABSC 865  Applied Behavior Analysis in Complex Organizations
ABSC 890  Seminar in: _________
ABSC 961  Advanced Seminar in Applied Behavior Analysis: _______

Experimental Analysis of Behavior II (Choose 1)
ABSC 936  Quantitative Analysis of Behavior
PRVM 800  Principles of Epidemiology
BIOS 704  Principles of Statistics in Public Health
BIOS 714  Fundamentals of Biostatistics I

Also required is Research or Intervention Practicum I and II (6). 2 supervised practicum courses in (a) basic or applied research or (b) behavioral interventions.

Research or Intervention Practicum I
ABSC 870  Practicum I in Behavioral Psychology
ABSC 871  Practicum I in Behavior Analysis: _______
ABSC 872  Practicum I in: _______
ABSC 873  Practicum in Educational Psychological/Rehabilitative Services: _______
ABSC 875  Practicum in Community Health Promotion
ABSC 876  Practicum in Community Development

Research or Intervention Practicum II
ABSC 972  Practicum II in: _______

Electives
Any course that provides students the opportunity to develop competence in specialized areas of behavioral investigation. Students should consult their advisors for elective options.

Master’s Thesis

Students complete an empirically based master’s thesis and pass an oral examination on it. With their advisor’s approval, empirically based theses from other programs may meet this requirement.

Research Skill

The Office of Graduate Studies requires students to have training in responsible scholarship and research skills pertinent to the field of research. This will be met by:

- Satisfactory completion of ABSC 735 plus 1 graduate-level methods course (students in the joint PhD-MPH program must complete the “plus 1” course through the MPH program)
- Satisfactory completion of ABSC 841
- 1 of the following:
  - At least 1 first-author publication in peer-reviewed journals, or
  - At least 2 first-author scholarly presentations at regional, state, or national professional meetings, no more than 1 of which may be a poster (the work presented must have been entirely completed while at KU)
- Successful passing of the Written and Oral Comprehensive Exam

Teaching Requirement

Graduate students receive training in the teaching and supervision of undergraduates. The requirement may be met in 1 of 2 ways. In the first, students serve as a paid half-time teaching assistant for 1 semester or as a quarter-time assistant for 2 semesters, assuming proportionate responsibility for class organization, lecturing, grading, and office hours under a faculty member’s supervision. In the second, students take L&S 792 or ABSC 941, attend 3 brown bag lectures at the Center for Teaching Excellence, and present a guest lecture to the department. In both cases, students must also write a statement of teaching philosophy and obtain numeric evaluations of their teaching in their guest lectures.

Pro-seminar I Requirement
Graduate students are expected to attend pro-seminar sessions when they are scheduled throughout the Fall and Spring semesters. These are usually scheduled for Friday afternoons at 3:30. Pro-seminars are typically presentations given by graduate students (see next paragraph), faculty members, and visiting scholars.

As part of your master’s degree requirements, you are required to present the results of your research (basic, applied, or conceptual) at a weekly pro-seminar meeting. The presentation must be comparable to that which would be given at a professional conference (not a panel discussion). You should be ready to field questions from your peers and the faculty in attendance.

**Professional Seminar II Requirement**

Doctoral students are required to present the results of their research at a department professional seminar meeting. The presentation is comparable to what would be presented at a professional conference. Students answer questions from their peers and the faculty in attendance.

**Editorial Critiques**

Students write 3 editorial reviews of published or unpublished journal articles, all of them empirical. The articles cover a range of topics and experimental designs. The first 2 are graded pass-fail by the student’s advisor; the third must be passed by 2 other faculty members.

**Comprehensive Examination**

The examination has 2 components:

A. *Written Examination*. In preparation for the oral comprehensive examination, students write a research proposal that includes a critical and comprehensive review of the research literature relevant to the proposed research. The topic is chosen by students with the guidance of their advisors. Students may complete this requirement with a document formatted according to the 2010 APA Publication Manual or a federal grant proposal.

B. *Oral Examination*. In preparation for the oral examination, students provide their comprehensive examination committee members with a copy of their research review and proposal at least 2 weeks before the date of the defense. During the examination, committee members ask students questions about the review and proposal, as well as on topics covered in the required doctoral curriculum. The defense is successful if a majority of the committee members vote to pass it.

**Dissertation**

In consultation with their advisors, students conduct an empirically based dissertation, typically based on the comprehensive examination proposal, and pass an oral examination on it. The defense is successful if a majority of the committee members vote to pass it. Any interested member of the College’s Graduate Faculty may attend.

Effective Catalog
2018 - 2019

Program Description

Ph.D. Degree Requirements

Students must earn credit in each of the following courses or their equivalents:

- BINF 701: Bioinformatics I (5)
- BINF 702: Bioinformatics II (5)
- BINF 709: Topics in: [blank] (1-3)
- BIOL 636: Biochemistry I (4)
- BIOL 638: Biochemistry II (3)
- BIOL 804: Scientific Integrity: Molecular Biosciences (1)
- Elective courses in biology/chemistry (6)
- Elective courses in analysis/mathematics/statistics (6)

By the end of the second year, the student should have completed the formal course work to fulfill requirements for the degree. The student completes and submits a research proposal for the comprehensive oral examination. The proposal must develop a research topic related to the general areas of computational biology. The topic of the research proposal is decided upon by the student in consultation with the thesis advisor. Upon completion of the comprehensive oral examination, the student aggressively carries out research in the laboratory of the thesis advisor. In addition, the student continues attending the weekly Computational Biology seminar series and participating in the Computational Biology student seminar series. A Ph.D. degree is awarded once the student has written a final dissertation and carried out a successful defense of it before a committee.

The Computational Biology Ph.D. includes training in research skills and responsible scholarship. The research skills training requirement is met through BINF 701/702 coursework, as well as through individual mentorship and collaborations in the Center for Computational Biology and student research.
presentations. The responsible scholarship training requirement is met through BIOL 804 coursework, as well as through individual mentorship during the conduct of research.

Program Name

Environmental Geology, P.S.M.

Do you intend for this program to be offered online?

No

Effective Catalog

2018 - 2019

Program Description

The Department of Geology proposes to add a new concentration, Environmental Geology, within the existing Professional Science Masters (PSM) in Applied Science at the KU Edwards Campus in Overland Park (PSM-EG).

Environmental geology is an interdisciplinarm field that seeks to address and study anthropogenically-derived and naturally occurring environmental hazards on Earth. The field is grounded in basic geological sub-disciplines such as mineralogy, sedimentology and stratigraphy but has primary focus on hydrogeology, geochemistry, geophysics and components of engineering geology. These sub-disciplines and the associated field and laboratory techniques in the form of a PSM program lead to an applied understanding of how to utilize geophysical, geochemical and hydrogeological techniques to evaluate, remediate, and monitor the impact or potential impact of contamination. This applied program separates itself from traditional thesis-based research MS degrees in Geology and/or Hydrogeology through its direct integration of management, communication and case study based coursework with a focus of developing future government and industry professional leaders in Environmental Geology with a broad toolbox to address environmental problems.

The curriculum for the PSM-EG builds upon the PSM template created by KU in 2012-2013; best practices as recommended by the National Professional Science Masters Association (NPSMA); and the recommendations of an external advisory board of twelve Kansas City area environmental geologists and professional geologists convened at the KU Edwards Campus in March 2016 (See Appendix 3 for a list of the members of this panel).

Degree Requirements

The PSM-Environmental Geology degree requires a minimum of 37 credit hours.

Professional Skill Courses (12 credit hours)

**FMS 676**
Problems in Basic Film Production 3

Area of Concentration (12)
Select 12 hours of courses from one of the following 4 categories:

**A. History and Theory**

**FMS 841**
Asian Film 3

**FMS 842**
Latin American Film 3

**FMS 862**
Survey of Film and Media History 3

**FMS 863**
Survey of Documentary and Experimental Film and Media 3

**FMS 902**
Film Seminar in: _____ 3

1 elective in film history or theory 3

**B. International Film and Media**
C. Practical Criticism

FMS 621  American Film Criticism  3  
FMS 880  Development of American Popular Culture in the:  3  
Select one elective of the following:  3  
FMS 841  Asian Film  
FMS 842  Latin American Film  
FMS 862  Survey of Film and Media History  
FMS 863  Survey of Documentary and Experimental Film and Media  
FMS 902  Film Seminar in:  

D. Theory and Practice of Production

Select two electives of the following:  6  
FMS 675  Problems in Basic Video Production  
FMS 676  Problems in Basic Film Production  
FMS 773  Problems in Intermediate Screenwriting  
Select two electives of the following:  6  
FMS 841  Asian Film  
FMS 842  Latin American Film  
FMS 862  Survey of Film and Media History  
FMS 863  Survey of Documentary and Experimental Film and Media  

Master's Thesis

FMS 899  Master's Thesis  6  
All courses should be selected in consultation with the advisor.

Rationale for proposal
We are retiring FMS 676 and FMS 842 and have edited the MA requirements to reflect these changes.

Effective Catalog
2018 - 2019

Program Description

Ph.D. Degree Requirements

The Ph.D. is an academic degree, but students are expected to complete 6 hours in film and video production.

To be admitted, a student ordinarily is expected to have a Graduate Record Examination score of at least 160 (verbal), 144 (quantitative), and 4.5 analytical writing. The applicant also must have a grade-point average of at least 3.2 for undergraduate and at least 3.5 for graduate work and a master’s degree acceptable to the graduate faculty. Deficiencies in background may require make-up work.

Ph.D. Degree in Film and Media Studies

The degree requires 60 hours not including language proficiency. Please meet with your advisor or graduate director each semester to assess your progress.

Core Requirements

24 hours of core courses are required. Doctoral students in film and media studies must take a core of courses aimed at strengthening methodological, historical, and theoretical grounding. 1 course must be taken in non-Western/indigenous film; 2 graduate-level production courses are required, and 2 courses in FMS 902 Film Seminar are mandatory.

Elective Requirements

9 hours of electives are required. Elective courses focus on the academic study of history, international cinema, popular culture, and film criticism. These courses are selected with a graduate advisor to reflect the student’s special interest. The advisor may increase the number of hours, depending on the student’s academic needs.

Production Requirements

6 hours of production courses are required. Production courses give students an understanding of the production process in making film, video, or animation pieces. On graduation, doctoral students can perform as competent artisans in addition to research scholars. Production courses are selected with a graduate...
advisor to reflect the student’s specific interest. The advisor may increase the number of hours, depending on the student’s academic needs.

**Secondary Field Requirements**

9 hours of secondary field courses at the graduate level from outside the Department of Film and Media Studies, are chosen to assist the student in writing the dissertation. They are related to the student’s proposed area of specialization. Examples include English; history; women, gender, and sexuality studies; American studies; education; and social welfare.

**Research Skills and Responsible Scholarship Requirements**

KU requires all doctoral students to meet the Research Skills requirement before proceeding to comprehensive exams. Compliance with this policy requires all graduate students to receive training in responsible scholarship pertinent to the field of research and obtain research skills pertinent to the doctoral level of research in their field(s). Research Skills requirements may be satisfied by taking either FMS 902: Research Methods and Applications of New Media or FMS 902: Visual Methods. Students may also elect to demonstrate proficiency in one foreign language for conducting research.

**Comprehensive Examination**

2 publishable papers are due at the time of the examination. The examination includes written responses to questions in history, theory, production, and literature/criticism, followed by an oral examination.

**Dissertation**

18 hours of dissertation credit are required. The finished dissertation must constitute a palpable contribution to knowledge in the candidate’s chosen field. After its completion, an oral defense must be held no less than 4 weeks before the graduation deadline. The committee consists of 1 chair, 3 departmental members, and an outside member.

**Degree Requirements**

**Master of Arts in German Studies**

**Requirements**

1. 30 credits that must include:
   - **GERM 700** Introduction to Graduate Studies in German  
   - **GERM 712** The Structure of Modern Standard German  
   - **GERM 800** Seminar: Teaching German as a Second Language  
   - **GERM 740** Introduction to the Culture of German-Speaking Central Europe
   
   AND select 1 of the following  
   - Non-Thesis Option - 7 elective Courses (21 hours)  
   - Thesis Option - 5 elective courses and 2 thesis courses (21 hours)

**Total Hours** 30

2. Comprehensive written and oral examinations

**Elective Courses**

- **GERM 626** Idiomatic Usage in Modern Colloquial and Literary German  
- **GERM 751** Topics in German Studies: ______  

1 This German Studies Topics course is offered with specific topics and subtitles as needed in different semesters. Each semester it will cover key topics in German Studies and represents the expertise of faculty in the department as well as department-affiliated faculty. See current Graduate Student Handbook for possible topics.

**First Year Plan of Study:**

https://next.catalog.ku.edu/courseleaf/approve/
1st semester: Students choose a graduate advisor and begin compiling a course-based individual reading list. The reading list should consist of twenty primary and secondary works approved by the advisor.

2nd semester: Students declare their choice of thesis, non-thesis or project option and organize their reading list accordingly with the assistance of their advisor.

**Thesis Option Exam**

The Master’s Thesis (50 pages minimum) consists of a scholarly analysis of a chosen topic that is derived from a term paper and expanded to contribute new insights to the discourse surrounding the topic. Students enroll in German 899 Master’s Thesis during their third and fourth semesters (6 credits total) to develop and complete their thesis under the direction of a graduate faculty advisor.

**Variant within the non-thesis track: Master’s Project**

The Master’s Project (30 pages minimum) provides the opportunity to combine scholarly and practical learning. The project, which may be developed from an internship or a broader topic, such as digital Humanities, must be approved in advance by a graduate faculty advisor with whom the student enrolls. **enrolls, enrolls in GERM 898 Master’s Project (3 credits).**

Effective Catalog  2018 2018-2019

Program Description

Degree Requirements

M.A. Degree Requirements

The Master of Arts in Global and International Studies is a 33-credit-hour degree. All students complete 3 required courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>GIST 701</td>
<td>Approaches to International Studies</td>
<td>3</td>
</tr>
<tr>
<td>GIST 702</td>
<td>Globalization</td>
<td>3</td>
</tr>
<tr>
<td>GIST 710</td>
<td>Research Design for International Area Studies</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition to the 3 required courses, students must then complete 7 graduate-level elective courses (21 credit hours). These electives form 2 coherent clusters:

Regional Specialization Cluster:

These courses in this cluster should give students focused knowledge about a selected region of the world. Up to 3 language courses (9 hours) at or above the 500 level may also count toward this requirement.

Topic Specialization Cluster:

This cluster must focus on a topic specialization approved by the student’s adviser. Students can choose current global and international themes, or they can select an existing graduate certification program offered by another department, such as certificates in community health and development, peace and conflict, women gender and sexuality studies, international business, public administration or communication studies.

For more on the regional and topical elective options, consult the GIST graduate student handbook or contact one of the GIST graduate advisors.
For all students, the M.A. degree also requires evidence of current competence (equivalent to 2 years of successful college-level study) in a modern spoken and written language other than their native tongue; English. Courses taken to complete this requirement generally do not count toward the degree. Students must meet all general requirements as well as program requirements.

**Thesis Option**

Students electing to write and defend a thesis must have their thesis project proposal approved by their thesis advisor prior to enrolling in GIST 898 Thesis & Research Project Writing. Students choosing the thesis option must complete GIST 898. For guidelines and policy regarding the thesis, please consult the GIST graduate student handbook.

**Non-thesis Options**

**Option #1 (Research Project and Oral Exam)** – students selecting this option are required to take GIST 898 and complete a research project of more limited scope and scale than a thesis, and the project will be followed by an oral exam. For guidelines and policy regarding the research project option, please consult the GIST graduate student handbook.

**Option #2 (Exam)** – students choosing this option must take an additional 3 credit hours, corresponding to one of their 2 coherent elective clusters. In the final semester, the student must successfully complete a written examination on the core course content (GIST 701 and GIST 702) and the student’s regional and substantive areas of focus. This is followed by an oral exam. Students considering this option must consult the graduate director first. For guidelines and policy regarding the written and oral exam option, please consult the GIST graduate student handbook.

<table>
<thead>
<tr>
<th>Rationale for proposal</th>
<th>Updating language to match current program requirements and to provide latest description of program.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Additional Information</td>
<td>The only other change is the simplification of the page, so that it is not so busy. We've decided to refer students to the more detailed policy on our website and in the graduate student handbook. We had a lot of &quot;brainstorm&quot; suggestions for possible topic specialization, which really not needed and so removed.</td>

Key: 144
M.A. Degree Requirements

The M.A. degree in museum studies requires 36 credit hours at the graduate level. Students in the Museum Studies program will complete the following:

1. The Museum Studies Core - 9 credit hours
2. Museum Professional Areas - 9 credit hours
3. Museum Conceptual Domains - 6 credit hours
4. Electives - 9 credit hours
5. Museum Experience (Internship) - 3 credit hours
6. Final Product & Examination

**1. Museum Studies Core (9 credit hours)**
The Museum Studies Core ensures that all Museum Studies students gain a comprehensive understanding of the theories, history, techniques, and problems common to museums, historical agencies and related institutions. The Capstone course, taken in a student’s third semester of study, provides an avenue for students to conduct research or other creative activities that advance the discipline of museum studies.

- MUSE 801 The Nature of Museums 3
- MUSE 802 Culture of Museums 3
- MUSE 803 Seminar in Current Museum Topics 3

**2. Museum Professional Areas (9 credit hours)**
Students will develop expertise in one of the principal specialties of museum work by completing at least two courses in that area, at least one of which must be a Museum Studies (MUSE) course. Many courses in other departments could fulfill requirements; it is the responsibility of students, and their advisors, to ensure that individual courses meet program requirements based on the general relevance of the course and assurance that the student’s work in the class will be applicable to museum studies by meeting with instructors and examining syllabi. Courses taken must be at the 500 level or above. The following lists include examples of courses that may fulfill the professional areas requirement.

**LEADERSHIP AND MANAGEMENT**
- MUSE 701 Museum Management 3
- Examples of Courses in Other Departments and Programs:
  - LAW 867 Law and the Arts 2-
  - MEMT 823 Seminar in: _____ 1-
  - PUAD 828 Nonprofit Management and Policy 3
  - PUAD 830 Administrative Ethics 3
Rationale for proposal
Removing BIOL 746 as the course is no longer offered
Ph.D. Degree Requirements

A student preparing for a doctorate in philosophy must meet general requirements and, before officially enrolling in PHIL 999 Dissertation, must satisfy these special requirements:

Complete at least 39 credit hours of graduate work in regular philosophy courses numbered 500 or above with grades in each course of at least B– and an overall grade-point average of at least B in all graduate philosophy courses. At least 24 of these hours must be at the 800 level or above (including PHIL 800 Tutorial and PHIL 901 Ph.D. Tutorial). Beyond the 39-hour requirement, additional hours in PHIL 999 Dissertation are required as appropriate in accordance with the rules of the Office of Graduate Studies and the Department.

A. Complete PHIL 800 Tutorial with a grade of B- or higher in the first year of enrollment.

B. Formal Philosophy Requirement: Complete PHIL 610 Symbolic Logic or PHIL 666 Rational Choice Theory with a grade of B- or higher.

C. Ph.D. Course Distribution Requirement:
   Metaphysics and Epistemology (6)
   Select two of the following:
   PHIL 620 Philosophy of Natural Science
   PHIL 622 Philosophy of Social Science
   PHIL 628 Philosophy of Logic
   PHIL 630 Philosophy of Mathematics
   PHIL 638 Philosophy of Language
   PHIL 648 Theory of Knowledge
   PHIL 650 Metaphysics
   PHIL 654 Philosophy of Mind
   PHIL 850 Topics in Recent Philosophy:
   PHIL 860 Topics in Philosophy of Science:
   PHIL 862 Topics in Logic:
| PHIL 868 | Topics in Philosophy of Language: _____ |
| PHIL 870 | Topics in Metaphysics: _____ |
| PHIL 872 | Topics in Theory of Knowledge: _____ |
| PHIL 877 | Topics in Philosophy of Mind: _____ |
| PHIL 888 | Topics in the Philosophy of the Social Sciences: _____ |

Value Theory (6)

Select two of the following:

- PHIL 504 Philosophy of Sex and Love
- PHIL 555 Justice and Economic Systems
- PHIL 662 Aesthetics
- PHIL 668 Political Philosophy
- PHIL 670 Contemporary Ethical Theory
- PHIL 671 Feminist Theories in Ethics
- PHIL 672 History of Ethics
- PHIL 674 Philosophy of Law
- PHIL 676 Medical Ethics: Life and Death Issues
- PHIL 677 Medical Ethics: Professional Responsibilities
- PHIL 850 Topics in Recent Philosophy: _____
- PHIL 880 Topics in Ethics: _____
- PHIL 884 Topics in Social and Political Philosophy: _____
- PHIL 888 Topics in Law and Philosophy
- PHIL 886 Topics in Applied Ethics: _____

Ancient Philosophy (3)

Select one of the following:

- PHIL 508 Early Greek Philosophy
- PHIL 606 The Philosophy of Plato
- PHIL 607 The Philosophy of Aristotle
- PHIL 608 Hellenistic Philosophy
- PHIL 805 Plato
- PHIL 807 Aristotle
- PHIL 820 Topics in the History of Philosophy: _____

Modern Philosophy (3)

Select one of the following:

- PHIL 820 Topics in the History of Philosophy: _____
- PHIL 824 Hume
- PHIL 828 Kant

Nineteenth- and 20th-Century Philosophy (3)

Select one of the following:

- PHIL 560 Nineteenth Century Philosophy
- PHIL 562 Kierkegaard
- PHIL 570 Nietzsche
- PHIL 580 Marxism
- PHIL 582 Existentialism
- PHIL 590 Phenomenology
- PHIL 592 Contemporary Continental Philosophy
- PHIL 820 Topics in the History of Philosophy: _____
- PHIL 831 Hegel
- PHIL 835 Frege
- PHIL 843 Heidegger
- PHIL 848 Wittgenstein
- PHIL 850 Topics in Recent Philosophy: _____
- PHIL 852 Quine
- PHIL 860 Davidson

D. **PHIL 901 Ph.D. Tutorial:** Students may not enroll in PHIL 901 before the third semester and normally should enroll in PHIL 901 no later than the sixth semester.

E. **Research Skills & Responsible Scholarship Requirement.** The University requires that every doctoral student have training in responsible scholarship and research skills pertinent to the field of research and appropriate to the doctoral level. This requirement must be met before taking the comprehensive oral exam. For Philosophy doctoral students, this requirement is met by the following:

- PHIL 800
- PHIL 901

- Demonstrated competence in an approved foreign language, OR completion of a faculty-approved course in a discipline related to the student's research interests.
F. Pass the comprehensive oral examination for Ph.D. candidacy. This examination must be taken after all of the above requirements have been completed, or in the semester in which the requirements will be completed. After the oral comprehensive examination has been passed, the student must write a dissertation of substantial merit showing the planning, conduct, and result of original research and must pass a final oral examination and defense of the dissertation.

Reduction of Credits

University graduate credit policy does not allow for a direct transfer of credits toward the Ph.D.; however, the department's requirement of 39 credit hours of acceptable graduate work for the Ph.D. may be reduced by departmental petition depending on the amount and quality of equivalent graduate work completed at another institution. At minimum, 24 hours of acceptable graduate work must be taken in the Department of Philosophy at KU.

Courses PHIL 628, PHIL 843, PHIL 852, PHIL 855, PHIL 862 were removed from the course listing options due to recent course retirement actions decided upon by the department.

### Program Description

**Degree Requirements**
- **Ph.D. Degree Requirements**

Although graduate education is offered through separate programs, each student prepares an individualized plan of study in consultation with faculty members. These plans indicate how the student proposes to fulfill the requirements for the M.A. and Ph.D. degrees, including all general requirements and conditions. **Note:** Contact your department or program for more information about research skills and responsible scholarship, and the current requirements for doctoral students. Current policies on Doctoral Research Skills and Responsible Scholarship are listed in the KU Policy Library.

### Social Psychology

**Monica Biernat, Social Psychology Program Director**

The social psychology program is an intensive research training experience seeking students who are committed to empirical, scholarly work. The major research interests of faculty members are stereotyping, prejudice, intergroup relations, person perception, close relationships, emotion and motivation, self and identity, culture.

In addition to course work, the central requirement of the program is continuous involvement in research. Research opportunities range from laboratory experimentation to field research. Depending on backgrounds and goals, students may move from one research setting to another or concentrate on a particular type of research throughout their training.
Requirements

Students are guided by individually tailored plans called contracts. These describe sequences of learning experiences developed by the student and a 3-member faculty committee. Beginning students are urged to enroll in basic courses in theory and research in social psychology and statistics. The contract specifies students’ long-range goals, specialties, other fields of psychology or related disciplines in which they will become proficient, proposed sequence of course work, research and teaching experiences they hope to obtain, plans for the M.A. proposal, comprehensive requirements and dissertation landmarks, and an approximate timetable. Contract details can be changed by agreement of the student and faculty committee.

The contract is a general framework that permits students’ graduate work to be adapted to their interests and abilities and provides a standard against which progress can be assessed. Students’ contracts must specify how the research skills and responsible scholarship requirement is to be met. The research skills requirement typically is met by completion of 6 graduate courses in statistics and research design. The responsible scholarship requirement is met via coursework as specified in the contract, completion of online tutorials, and attendance at ethics proseminars. All contracts must comply with other departmental and general rules including residence and time limits.

Cognitive and Brain Sciences

Evangelia G. Chrysikou, Cognitive and Brain Sciences Program Director

The Cognitive and Brain Sciences PhD program at the University of Kansas seeks students with the intellectual potential, motivation, and quantitative aptitude to engage in productive scholarship in a basic or applied area of interest, including:

- Cognitive Psychology
- Cognitive Neuroscience
- Developmental Science
- Aging and Cognition
- Child Language
- Quantitative Methods

The training program emphasizes the development of a broad-based foundation in theory, research methods, technical skills, and quantitative analysis for application in a variety of basic and applied research settings. Areas of focus include language, perception, attention, memory, cognitive development, aging, higher-order cognition, neuropsychology, computational neuroscience, psycholinguistics and neurolinguistics, philosophy of psychology, and philosophy of mind.

Our graduate students begin research as soon as they enter the program. As a result of this focus on guided research, our recent graduates have quickly found employment in academic programs, research organizations, and applied research units in industry and government. The current general program requirements can be found here. The program follows a mentorship model. That is, students are admitted to work with specific faculty members rather than to the program at large. Students and faculty can also work closely with one of the CBS affiliated faculty members within the Department of Psychology or in other Departments (Linguistics, Gerontology, Speech-Language-Hearing, and Philosophy). Students benefit from regular monthly talks by faculty members and researchers in the field that take place within the Psychology Department, in other KU departments, and at the KU Medical Center (see our CBS Brown Bag and Mind Lecture Series).

Our admission requirements are listed here. During the application process, applicants are encouraged to contact faculty members with whom they are interested in working.

General Program Requirements

1. Course Requirements

Overview: Students are expected to complete a PhD degree within 4-5 years. During their time in the program, students are required to take 4 Advanced Content courses and 4 Methods & Statistics courses (Primary Course Requirements, 24 didactic credits), at least 3 elective courses on areas of particular interest to their research (Secondary Course Requirements, 9 didactic credits), and complete a minimum of 18 research credits (PSYC 980 or PSYC 999).

Students are also required to take 2 hours of the Teaching of Psychology course (PSYC 981), which is intended to prepare them for teaching undergraduate courses. Additional elective courses that are related to the student’s area of research interest are strongly encouraged, in consultation with the student’s advisor. The program is structured such that the primary course requirements can be completed during the first three years in the program and prior to the student’s oral comprehensive examinations. The selection of elective courses further allows the student to acquire depth of knowledge and skills within one or more areas within the Cognitive and Brain Sciences.

Required Courses

1.1 Primary Course Requirements

Advanced Content Courses - 4 courses required (12)

All CBS students are required to take the following two Advanced Content courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 723</td>
<td>Advanced Cognitive Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYC 725</td>
<td>Cognitive Neuroscience</td>
<td>3</td>
</tr>
</tbody>
</table>

For the remaining two required core courses, CBS students must choose among the following Advanced Content course options, depending on their research interests and in consultation with their primary advisor:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>

Methods & Statistics - 4 courses required (14-15)
All CBS students are required to take the following three Methods & Statistics courses:

- **PSYC 790**  Statistical Methods in Psychology I  4
- **PSYC 791**  Statistical Methods in Psychology II  4
- **PSYC 983**  Methods & Professional Issues in the Cognitive & Brain Sciences  3

For the remaining one required Methods & Statistics course, CBS students can choose among the following Methods & Statistics course options (or a preapproved alternative; approval of CBS Program Director required prior to registration):

- **PSYC 879**  Applied Nonparametric Statistical Methods  3
- **PSYC 887**  Factor Analysis  4
- **PSYC 892**  Test Theory  3
- **PSYC 894**  Multilevel Modeling  3
- **PSYC 895**  Categorical Data Analysis  3
- **PSYC 896**  Structural Equation Modeling I  3
- **PSYC 996**  Structural Equation Modeling II  3
- **PSYC 988**  Modeling of Intraindividual Observations  3
- **PSYC 993**  Seminar: _____ (Seminar Topic: Missing Data Analysis)  3
- **PSYC 994**  Missing Data Analysis  3

### 1.2. Elective Course Requirements

Students, in consultation with their advisor, are required to take at least 3 approved elective courses (9 didactic credits) within a given area of expertise to satisfy the electives requirement. The student may satisfy the elective course requirement by demonstrating competence in areas such as Statistics (see also the [Quantitative Minor in Psychology](https://next.catalog.ku.edu/courseleaf/approve/)), including psychometrics or mathematical modeling of psychological processes, beyond the primary required courses in Statistics and Methodology (see above); neuroscience (e.g., expertise in neuroscience techniques, such as brain imaging and mapping, neurostimulation, or mastery of psychophysiological methods); computer science, (such as artificial intelligence, computer simulation of cognitive processes, or programming skills); linguistics, psycholinguistics, and neurolinguistics; or human factors. It is expected that CBS students will enroll in elective CBS courses offered by the CBS faculty. A list of the approved elective courses for the CBS program appears below:

#### Computer Science
- **E ECS 138**  Introduction to Computing: _____
- **E ECS 368**  Programming Language Paradigms
- **E ECS 649**  Introduction to Artificial Intelligence

#### Human Factors
- **ADS 710**  Advanced Human Factors in Interaction Design
- **ADS 765**  Interaction Design
- **ADS 770**  Design Cognition

#### Linguistics
- **PSYC 735**  Psycholinguistics I
- **PSYC 737**  Psycholinguistics II

#### Linguistics / Neuroscience
- **LING 738**  Neolinguistics I
- **LING 742**  Neolinguistics II
- **SPLH 620**  The Communicating Brain: The Ultimate Personal Computer
- **SPLH 764**  Seminar in: _____ (Speech Perception)
- **SPLH 820**  Developmental Phonological Disorders
- **SPLH 836**  Genetics of Communication and Learning Disorders
- **SPLH 846**  Language Disorders of Adults
- **SPLH 850**  Language Disorders Secondary to Closed Head Injury and Dementia
- **LING 715**  Linguistics and Second Language Acquisition

#### Neuroscience
- **PSYC 800**  Experimental Psychology: _____ (Fundamentals of Neuroimaging)
- **PSYC 831**  Advanced Human Learning and Memory
- **PSYC 956**  Social Neuroscience
- **PSYC 843**  Behavioral Pharmacology
- **PSYC 993**  Seminar: _____ (Seminar Topic: Developmental Neuroscience*)
- **PSYC 993**  Seminar: _____ (Seminar Topic: Human Behavioral Genetics)

#### Neuroscience / Computer Science
- **PSYC 993**  Seminar: _____ (topics as listed below)
- Seminar Topic: Language*
- Seminar Topic: Memory*
- Seminar Topic: Ethics in CBS*
- **PHIL 654**  Philosophy of Mind

#### Statistics
- **PSYC 879**  Applied Nonparametric Statistical Methods
- **PSYC 887**  Factor Analysis
- **PSYC 892**  Test Theory
- **PSYC 893**  Multivariate Analysis
independent of the comprehensive oral examination and dissertation proposal (for written preliminary examination procedures, see CBS Graduate Student preliminary examination committee consists of three members, two of whom must be core faculty of the CBS program. The written preliminary examination is student’s written preliminary examination committee. Formats have included an extensive review paper of a chosen research area, multiple smaller papers on a this written examination varies depending upon the research interests of the student, the recommendation of the student’s advisor, and the advice of the The purpose of the written preliminary examination is to provide CBS students with the opportunity to demonstrate their ability to become independent, critical 2.6. Written Preliminary Examination (Spring-Summer of Year 3) 2.4. Master’s Thesis and Oral Defense (Spring-Summer of Year 2) 2.3. NIH/NSF Grant Proposal Preparation 2.2. First Year Project & Presentation (Fall-Spring of Year 1) Each month there are talks by faculty members and researchers in the field that take place within the Psychology Department as part of the CBS Brown Bag and Professional Development Talk series. All students in the CBS program are required to attend all CBS Brown Bag and Professional Development talks until successful completion of the PhD degree. Attendance is mandatory and will be monitored and recorded on the student’s record and annual evaluation report. Successful completion of the program requires satisfactory attendance of the CBS talk series, as determined by the CBS Program Director and faculty. 2.1. CBS Brown Bag & Professional Development Series Attendance (continuous) Due to the program’s strong emphasis on research, CBS students are required to be actively engaged in research and laboratory activities (e.g., study design, data collection, data analysis, manuscript and grant preparation) from the first semester of their 1st year in the program. 2. Graduate Research & Scholarship Requirements 1. First Year Project is intended to provide the student with the opportunity to conduct a complete research study in their chosen lab, with their chosen advisor. The student is expected to demonstrate competence conducting laboratory research in their chosen area. As such, the First Year Project serves as a first point of evaluation of the suitability of a student for continued progress in the CBS program. Instances of substandard performance are expected to be rare. 2.3. NIH/NSF Grant Proposal Preparation All students will prepare a grant application to the National Institute of Health (NIH, F31) as a requirement of the PSYC 983 Methods course (typically taken either during the student’s 2nd or 3rd year in the program). It is highly recommended that the student proceed with the submission of the actual application to NIH, in consultation with his or her advisor, during their 3rd year in the program. Students are also strongly encouraged to submit an application to NSF during their 1st year in the program (annual November deadline). Students admitted in the program are encouraged to work with their advisor on the preparation of an NSF application as soon as they begin their PhD studies at KU. 2.4. Master’s Thesis and Oral Defense (Spring-Summer of Year 2) Students are expected to complete a Master's thesis (MA) by the end of their 2nd year in the program. The MA thesis can be a continuation of the student's First Year Project, or other independent original research. Students are required to design and carry out their MA research, write a paper, and defend orally their MA thesis before the beginning of their 3rd year in the program (for MA defense procedures, see CBS Graduate Student Handbook). The MA thesis committee consists of three members, two of whom must be core CBS faculty members. It is anticipated that the student will publish and communicate the findings of their MA thesis, in consultation with their advisor, in a peer-reviewed scientific journal, as well as a national or international conference in the cognitive and brain sciences. They are required to write a paper based on this project, as well as give a presentation at the CBS Brown Bag series in the Spring semester of their 1st year. The project is expected to result in a publication in a peer-reviewed scientific journal and/or presentation at a national or international conference in the cognitive and brain sciences. The project can also be a component of the student’s MA thesis, to be completed by the end of their 2nd year in the program. The First Year Project process is intended to provide the student with the opportunity to conduct a complete research study in their chosen lab, with their chosen advisor. The student is expected to demonstrate competence conducting laboratory research in their chosen area. As such, the First Year Project serves as a first point of evaluation of the suitability of a student for continued progress in the CBS program. Instances of substandard performance are expected to be rare. 2.5. Research Skills and Responsible Scholarship Requirement (Year 3 or 4) The Research Skills and Responsible Scholarship Requirement (RSRS) is a Graduate Studies requirement (described in the General Information section of the Graduate Studies section of the Catalog). The specific manner in which this requirement is to be satisfied is left to the discretion of a particular Program or Department. Students in the CBS Program can meet the RSRS Requirement as part of their overall plan for professional training as follows: (i) complete the HSC-L ethics tutorial (through the Human Subjects Committee-Lawrence) and the Responsible Conduct of Research (RCR) tutorial; (ii) complete the 4 required courses in Methods and Statistics (see section 1.1 above); (iii) become a graduate student member in one or more professional association in the cognitive and brain sciences, in consultation with the student’s advisor and committee members (e.g., American Psychological Association, Cognitive Neuroscience Society, Psychonomic Society, Association for Psychological Science, Society for Neuroscience, etc.); and (iv) attend an ethics/responsible scholarship-related talk during the CBS proseminar, annually. 2.6. Written Preliminary Examination (Spring-Summer of Year 3) The purpose of the written preliminary examination is to provide CBS students with the opportunity to demonstrate their ability to become independent, critical thinkers in their chosen research area. The expectation is that students will demonstrate the ability to think carefully about the literature in their chosen field and independently generate a critical evaluation of the field. They are further expected to be able to express themselves cogently in a written format. The form of this written examination varies depending upon the research interests of the student, the recommendation of the student’s advisor, and the advice of the student’s written preliminary examination committee. Formats have included an extensive review paper of a chosen research area, multiple smaller papers on a variety of research areas, or a full grant proposal (which may be submitted to a funding agency during the student’s 3rd year in the program). The written preliminary examination committee consists of three members, two of whom must be core faculty of the CBS program. The written preliminary examination is independent of the comprehensive oral examination and dissertation proposal (for written preliminary examination procedures, see CBS Graduate Student Handbook).
2.7. Comprehensive Oral Examination & Dissertation Proposal (Summer of Year 3 or Fall of Year 4)

The program recommends students entering without a Master's degree to take the oral comprehensive examination before the beginning of their 4th year. For those entering with an accepted Master's degree, the recommendation is by the end of the Fall semester of their 3rd year in the program. Prior to asking the Department to request the Graduate Division of the College to schedule the comprehensive oral examination, the student must: (i) have completed and presented their First Year project; (ii) have obtained their MA degree; (iii) have passed their written preliminary examination; (iv) have taken at least ¾ of the required Advanced Content and Methods & Statistics courses, (v) have completed the Research Skills and Responsible Scholarship requirement; and (vi) have met the residency requirements. The comprehensive oral examination committee consists of five members, three of whom must be core faculty of the CBS program and at least one of whom is from outside the Department and represents Graduate Studies. The exact form of the examination is not specified by Graduate Studies but is intended to cover the student's major area and ought to review the student's plans for a doctoral dissertation. The program requires the student to prepare a written dissertation proposal and to distribute it to the committee at least two weeks prior to the scheduled examination date. The committee shall judge the student's performance as satisfactory or unsatisfactory. If the performance is judged to be unsatisfactory, the student may request another examination in accordance with Graduate Studies policy on Doctoral Degree Comprehensive Oral Exams. The department may elect to dismiss the student upon the first or subsequent unsatisfactory outcomes.

Candidacy:

After passing the comprehensive oral examination, the student becomes a candidate for the doctoral degree. At this point, a dissertation committee of three members of the Graduate Faculty is formed, the Chairperson of which must be authorized by Graduate Studies to chair dissertations. From this point onward, the student must be continuously enrolled until the degree is earned and in accordance with Graduate Studies' policy on Doctoral Candidacy. Please see the College Office of Graduate Affairs website for further information on post-comprehensive enrollment requirements.

2.8. Dissertation & Final Oral Examination (Years 4-5)

It is expected that CBS students defend their dissertation by the summer of their 5th year in the program. The dissertation must be written in final form and orally defended before the dissertation committee. The dissertation committee consists of five members, three of whom must be core faculty of the CBS program (primary dissertation committee) and at least one of whom is a member of the Graduate Faculty outside the Department and represents Graduate Studies. Please see the Degree Programs section of the Graduate Studies' section of the catalog for more information on regulations governing committee composition.

2.9. Student Progress & Evaluation (continuous)

It is critical that students in the CBS program are continuously committed to and engaged in their progress and responsibilities toward earning their PhD degrees. To this end, by October 15 of each year in the program, all students are required to submit to their advisor(s) and the CBS Program Director their Annual Academic Contract (AAC). Students are strongly encouraged to meet with their primary advisor(s) prior to this date, to discuss their plans for the preparation of their AAC. The purpose of the AAC is to provide an outline of the student's annual research, academic, and professional goals, as well as a clear and specific timeline toward their achievement. The AAC should explicitly discuss the following areas:

1. **Completed Coursework:** A list of completed courses already taken, organized by the curriculum requirements as specified above.
2. **Projected Coursework:** A list of projected courses to be taken during that year, organized by the curriculum requirements as specified above.
3. **Research Goals and Planned Research Activity:** The student should discuss in as much detail as possible their research objectives and activities for the year. For example, in this section students can include an abstract for their First Year project or Master's thesis to be completed in the next two semesters, their goals for their preliminary examination, or comprehensive oral examination and proposal, the aims of a grant proposal to be prepared and submitted during that year, a manuscript to be prepared for that year, and so forth. Students are strongly encouraged to submit a monthly timeline for the year, according to which they anticipate to complete their research goals.
4. **Professional Goals:** The student should discuss in as much detail as possible their professional goals for the year. For example, in this section students can discuss their plans for sharing their work with other laboratories (e.g., presenting at lab meetings, proseminars), preparing conference submissions (including submission deadlines), networking (within and outside KU), conducting peer reviews of scientific papers (in collaboration with their advisors), engaging in teaching activities, or preparing materials for job applications/interviews, etc.

Students are required to submit to their primary advisor before May 1st of each year, to discuss whether they met their annual goals according to the timeline specified in their Annual Academic Contract and assess their progress toward their degree. Following this meeting, all students are required to submit Annual Progress Report to their advisor(s) and the CBS Program Director by May 1st of each year in the program. The purpose of the Annual Progress Report is to evaluate the student's success in meeting his or her research and academic objectives toward their degree. The Annual Progress Report should follow the format of the Annual Academic Contract and should specify in detail: (i) Completed courses and grades earned in each; (ii) how the student met their research goals and how they completed their planned research activities (e.g., published work, defended thesis, etc.); and (iii) how the student met the professional objectives they set in the beginning of the year in consultation with their advisor. This information will be shared with all core CBS faculty members and the student's progress will be discussed at the annual CBS faculty meeting. The CBS Program Director will then inform the student, in writing, of his or her standing in the Program. Aside from this formal evaluation, all students are strongly encouraged to seek feedback regularly from their advisors, other CBS faculty, committee members, or their instructors in graduate courses.

Templates for the Annual Academic Contract and Annual Progress Report are available on the CBS website. For any questions about the CBS Graduate Curriculum, please email the Program Director, Dr. Evangelia G. Chrysikou, at illachrysikou@ku.edu

---

**Quantitative Psychology**

Carol Woods, Interim Quantitative Psychology Program Director
The **quantitative psychology** program provides a unique doctoral training experience. Graduate students are trained as quantitative specialists who can interface quantitative methods with substantive issues across the behavioral and social sciences. Students develop a substantial background in quantitative methods. Some students pursue more depth in quantitative content areas, and some pursue complementary expertise in a nonquantitative content area (e.g., clinical, cognitive, developmental, health, social). The exact nature of a student’s nonquantitative focus depends on the interests and goals of the student and the faculty mentor. Current methodological interests include psychometric methods, item response theory, structural equation modeling, multivariate statistics, multilevel modeling, differential equation modeling and dynamical systems, nonparametric statistics, and other topics in quantitative methods as applied in the behavioral and social sciences.

Recent graduates are employed in academic programs, basic research units in academic and organizational settings, applied research, and freelance consultation. Nearly all graduates proceed directly to full-time employment. About half the positions are academic, nearly all in upper-tier universities with graduate programs. Quantitative specialists have substantial technical expertise that provides an advantage in the job market. They often earn higher starting salaries and have access to additional income-enhancing activities such as grants and departmental consulting.

The program requires a total of 58 nonthesis hours (15 courses). Requirements are as follows:

### Quantitative Training

</table>

### General Requirements

#### Research Skills and Responsible Scholarship

- Because the quantitative training track is all about research methods and statistics, the research skills requirement is met by completion of the core requirements in statistics and research design. The responsible scholarship requirement is additionally met via attendance at ethics proseminar presentations offered each semester, and through direct mentoring with the faculty advisor.
- M.A. thesis (1-9 hours plus public defense, typically completed by the end of the second year of training, 3-person committee).
- Comprehensive oral examinations (review paper, dissertation proposal, elaborate project, or written examination plus public defense, typically completed during the fourth year of training, 5-person committee with 1 outside member).
- Dissertation (1-12 hours plus public defense, 5-person committee with 1 outside member).
**Additional Graduate Experiences**

Quantitative psychology students have opportunities for experience in teaching, statistical consulting, and data analysis through employment in various settings. Students also are expected to participate and assist with our regular summer training institutes on advanced quantitative techniques. Opportunities may include teaching undergraduate statistics in psychology, research assistantships in quantitative projects, assisting in research at an institute such as the Institute for Life Span Studies, or working in the Center for Research Methods and Data Analysis. Students have access to quantitative workshops and brown-bag lunches offered regularly by the quantitative training program. Workshops are conducted by national leaders in quantitative methods. Special resources for attending national workshops and conventions are also available.

**Quantitative Minor**

A minor in quantitative psychology is offered for graduate students in any of the department's major programs and for select programs in the College of Liberal Arts and Sciences (e.g., sociology). The quantitative minor is an addition to the regular program and does not replace any existing or future requirements of the student's major program. Students desiring a major emphasis in quantitative psychology should apply directly to the quantitative psychology program.

The minor consists of advanced course work in statistics, measurement, and methodology. The quantitative minor provides the student with elevated levels of quantitative expertise to enhance the overall quality of the research program. It gives students a competitive edge in the job market. Many faculty positions now request expertise in both a specific content area and in quantitative methods. Advanced quantitative skills also offer students additional job opportunities. The quantitative minor provides the additional credentials needed to pursue these jobs.

The minor requires 5 courses in quantitative methodology beyond the basic foundations course requirement (PSYC 790). The classes normally are taken in the department but can come from other departments with approval. Currently available courses include Analysis of Variance, Categorical Methods, Nonparametric Statistics, Multivariate Methods, Multilevel Modeling I, Structural Equation Modeling I and II, Test Theory, Factor Analysis, and regularly offered Advanced Topics in Quantitative Psychology seminars with varying topics.

For more information, contact Carol Woods, cmw@ku.edu.

**Developmental Psychology**

Andrea Greenhoot, Developmental Psychology Program Director

Training in developmental psychology is interdisciplinary and collaborative. The developmental emphasis profits significantly from affiliated faculty in other academic units such as Speech-Language-Hearing: Sciences and Disorders, the School of Education, and doctoral programs in Clinical Child Psychology, Child Language, Gerontology, and Neurosciences. The developmental emphasis is substantively linked to the Schiefelbusch Institute for Life Span Studies, the Kansas Intellectual and Developmental Disabilities Research Center, and the Center for Biobehavioral Neurosciences in Communication Disorders. Many of the developmental psychology faculty have affiliations with more than one entity on campus. This breadth offers students multidisciplinary exposure and experiences that train them to conduct cutting-edge research on developmental phenomena across the life span. The program includes a number of concentrations, including cognitive, social, evolutionary, language, and quantitative. Students work with a faculty mentor to customize a concentration that suits the needs of the student and the expertise of the available faculty. The program is appropriate for students who wish to be trained in the traditional divisions of psychology (e.g., cognitive-developmental, social-developmental, quantitative-developmental) as well as those whose interests may not fall squarely within traditional divisions.

**Curriculum**

The curriculum involves 35 hours of formal developmental courses in addition to master's, research skills and responsible scholarship, and dissertation research hours. Students are expected to enroll in a biweekly Proseminar on Developmental Science (6 semesters minimum). The program allows students to pursue their developmental research interests and accumulate academic credentials that give access to the job market of their choice. Formal course requirements are as follows:

- **Statistics, Design, and Professional Issues** (13 hours, minimum) (13)
  - PSYC 790 Statistical Methods in Psychology I 4
  - 1 additional advanced quantitative psychology course 3
  - PSYC 815 Design and Analysis for Developmental Research 3
  - PSYC 982 Issues in Scientific Conduct 3
  - Core Developmental Courses (12 hours) (12)
  - PSYC 691 The Psychology of Aging 3
  - PSYC 870 Cognitive Development 3
  - PSYC 826 Social Development 3
  - PSYC 923 History and Systems of Developmental Psychology: Developmental Theory 3

**Concentration (9 hours, minimum)**

The concentration builds expertise in an area chosen by the student in conjunction with the faculty advisor. Courses offered outside the department may count toward the concentration. The concentration can be either very focused or a uniquely tailored hybrid of courses. Some examples of concentrations that students may create are listed below. Many related courses may be substituted for the same general theme of the concentration and students can create a concentration that fits with their interests and educational objectives. Possible concentrations include

**General Cognitive Development**

- PSYC 733 Advanced Cognitive Psychology 3
- PSYC 800 Experimental Psychology: _____ (Cognition and Aging) 3
- PSYC 872 Attention, Perception, and Learning in Infancy 3

**Social-Personality Development**

- PSYC 777 Social Psychology: Theory, Research, and Clinical Applications 3
Theories of Personality

Advanced Personality 3

Quantitative Developmental Methods

Structural Equation Modeling I 4
Structural Equation Modeling II 3
Multivariate Analysis 4

Note: Such a concentration also lends itself to completing a graduate minor in quantitative psychology and satisfying the Research Skills and Responsible Scholarship (RSRS) requirements.

Developmental Evolutionary Psychology

Seminar: _____ (Developmental Evolutionary Psychology) 1-5

Behavioral Ecology and Sociobiology 3
Evolutionary Ecology 3

Developmental Cognitive Neuroscience

Cognitive Neuroscience 3
Experimental Psychology: _____ (Neuroscience Methods) 3
Experimental Psychology: _____ (Developmental Cognitive Neuroscience) 3

Language Development

Psycholinguistics I 3
Seminar: _____ (Research Methods in Language Development) 1-5
Language Development 3

Developmental Research Skills and Responsible Scholarship (8 hours, minimum)

The RSRS requirement generally is satisfied by taking 2 additional quantitative courses and PSYC 982 Issues in Scientific Conduct. Satisfying the RSRS requirement in this way also lends itself to the completion of a graduate minor in quantitative psychology (6 quantitative courses total are required for the minor).
For more information, contact Andrea Greenhoot, agreenhoot@ku.edu

Clinical Psychology

Rick Ingram, Director of Clinical Training

The clinical psychology program educates students to master knowledge in the field of scientific psychology so that they can generate new scientific knowledge and theory related to the field of clinical psychology, and can make independent contributions to the evolving base of skills and scientific knowledge required for clinical practice. All students take basic course work and practica in academic/research and clinical application. Students may take electives or practica to augment either aspect of training. About half the graduates pursue academic/research-oriented careers, and the rest undertake careers emphasizing applied activities (e.g., psychotherapy in community mental health centers or hospitals). Information is available from the graduate admission secretary or online.

Health and Rehabilitation Specialty

Work centers on the psychosocial and biomedical aspects of physical health, illness, and disability. Students apply the knowledge and techniques to problems of prevention, assessment, treatment, and rehabilitation. A detailed overview is available from the graduate admission secretary or online.

Requirements

Individual plans of study are designed to meet the standards established by state licensing boards and professional organizations. Individualization is achieved by selecting among alternate ways of meeting specific requirements and by selected electives or choosing the health and rehabilitation emphasis. The plan of study constitutes an agreement between the student and the entire clinical faculty. Program requirements:

General Core Requirements for Clinical Psychology (13-17 credit hours)

Quantitative Analysis of Behavior (6-7)

Psychological Statistics: Foundations and Applications 3
or PSYC 790 Statistical Methods in Psychology I

Select 1 of the following: 3-4

Computing and Psychology
Analysis of Variance
Applied Nonparametric Statistical Methods
Factor Analysis
Test Theory
Multivariate Analysis
Multilevel Modeling
Categorical Data Analysis
Structural Equation Modeling I

Cognitive Bases of Behavior (3)

1 course from the following: 3

Advanced Cognitive Psychology
Cognitive Neuroscience
Experimental Psychology: _____ (Cognition and Memory)
PSYC 800  Experimental Psychology: Developmental Cognitive Neuroscience
PSYC 800  Experimental Psychology: Memory, Emotion, and Development
PSYC 831  Advanced Human Learning and Memory
PSYC 863  Clinical Neuropsychology Across the Lifespan
PSYC 870  Cognitive Development
EPSY 807  Theories and Research in Human Learning

Social Bases of Behavior (3)
1 course from the following: 3
PSYC 774  Advanced Social Psychology I
PSYC 775  Advanced Social Psychology II (Current Issues)
PSYC 777  Social Psychology: Theory, Research, and Clinical Applications
PSYC 825  Social Development
PSYC 966  Social Neuroscience (Theory and Applications)

Developmental Bases of Behavior (3)
1 course from the following: 3
PSYC 825  Social Development
PSYC 863  Clinical Neuropsychology Across the Lifespan
PSYC 870  Cognitive Development
EPSY 705  Human Development through the Lifespan

Clinical Requirements (46)
9 content courses (25 hours) 25
EPSY 998  Seminar in: ___
PSYC 888  Diversity Issues in Clinical Psychology
or EPSY 875  Understanding Cultural & Individual Differences in Professional Psychology
PSYC 898  Proseminar: Professional Issues in Clinical and Health Psychology
PSYC 946  Theories and Methods of Psychotherapy
PSYC 950  Clinical Supervision and Consultation: Theory & Research
PSYC 960  Advanced Psychopathology
PSYC 961  Biological Foundations of Psychopathology
PSYC 968  Research Methods in Clinical Psychology
PSYC 975  Professional and Ethical Problems in Clinical Psychology
or EPSY 900  Legal, Ethical, and Professional Issues in Professional Psychology

Note: Because this is an American Psychological Association-approved clinical program, the faculty expect all students to operate within the APA Code of Ethics in professional and personal behavior. Adherence to the ethical principles is part of the normal evaluation of students during the degree program.

7 Courses Covering Practicum Course Work (21 hours): 21
PSYC 850  Assessment I: Foundations of Psychological Assessment
PSYC 855  Assessment II: Integrative Psychological Assessment
PSYC 964  Clinical Practicum I
PSYC 965  Clinical Practicum II
PSYC 966  Clinical Practicum III
PSYC 969  Clinical Practicum IV
or PSYC 835  Clinical Practicum IV: Health
PSYC 970  Clinical Practicum V
or PSYC 836  Clinical Practicum V: Health

Research Skills Proficiency
This requirement normally is met by completing all of the following with a grade of B or higher in each. Because these courses are required elsewhere in the curriculum, they do not represent additional required hours.
PSYC 968  Research Methods in Clinical Psychology 3
PSYC 790  Statistical Methods in Psychology I 4
One of the following: 3-4
PSYC 791  Statistical Methods in Psychology II

Computer Analysis of Psychological Data
EPSY 811  Analysis of Variance
PSYC 879  Applied Nonparametric Statistical Methods
PSYC 887  Factor Analysis
PSYC 892  Test Theory
PSYC 893  Multivariate Analysis
PSYC 894  Multilevel Modeling
PSYC 895  Categorical Data Analysis
PSYC 896  Structural Equation Modeling I

Responsible Scholarship Requirement
This is a new requirement. Satisfying this requirement will not necessitate additional credit-hour enrollments. Refer to the program website for the latest information.
Students must also complete:

A. Online tutorial for Responsible Scholarship from Research & Graduate Studies
B. Online tutorial for IRB (institutional Review Board)
C. Online tutorial for HIPAA data (completed annually)

**Thesis and Dissertation (18 hours)**

The student must complete a master’s thesis based on an empirical study (minimum of 6 hours) and an empirical doctoral dissertation (minimum of 12 hours) and defend each in separate oral examinations. The thesis should be completed by the end of the second year and written in a form suitable for journal submission.

**Electives/Independent Study (6 credit hours, minimum)**

Because a minimum of 86 hours of graduate credit is required for the degree, the hours not included in the requirements above may be elective courses selected by the student and his or her advisor.

**Examinations: Task**

Each student must propose and demonstrate competence in one task or project. This task typically is done in the third year. It may be in applied/clinical, research/methodology, or program evaluation. A complete description is available from the clinic office or online.

Upon completion of all degree requirements except the dissertation and internship, the student must pass the oral comprehensive examination. This examination addresses a proposal for the dissertation as well as related, general questions in the field. It should be taken before completion of 4 calendar years for students entering with the B.A. and 3 years for students entering with the M.A. The faculty believes that the student is best served by completing the entire dissertation before the internship.

**Internship (3 hours)**

Students must complete a 12-month predoctoral internship at a setting approved by the clinical psychology faculty. Clinical students may complete their internships at any setting approved by the American Psychology Association.

---

**Rationale for proposal**

SPLH 836 was removed from the Degree Requirements listing as the course is being deactivated.

**Additional Information**

Additional info on rationale for changes to Cognitive and Brain Sciences (CBS) Program: These proposed changes to CBS curriculum are not related to (and do not impact) the other programs within the Psychology PhD. The main objective of our revised CBS curriculum is to help students master the skills required to accomplish high quality research within the Cognitive & Brain Sciences. The motivation for redesigning the CBS curriculum is threefold: (1) CBS faculty’s aim to ensure that we are providing meaningful graduate training in this area primarily through courses offered or research activities organized by CBS faculty; (2) our intention to construct a CBS curriculum that provides solid foundations for research in the Cognitive & Brain Sciences, one that is also flexible to allow students’ research to feature the interdisciplinary nature of our field; and (3) the interest of CBS students for more structure in the curriculum, more classes offered regularly by CBS faculty, but also the opportunity for acquiring expertise in additional—supplementing their primary—areas of research focus (e.g., computer science, linguistics, neuroscience), through approved elective course sequences. The revised CBS curriculum intends to highlight a key aspect of our program, namely the early and in-depth engagement in research in the context of our mentorship model, students join a laboratory and begin to design and are expected to carry out a research project in their first and second semesters. They will be required to write a paper based on research they have performed during that time, as well as give a talk in our proseminar at the end of their first year in the program (First Year Project). The purpose of the First Year Project is to encourage engagement in research as early as possible, such that the student and their advisor can identify strengths and weaknesses to be addressed before the student’s MA thesis. The student’s second-year project and paper generally result in the awarding of an MA degree. These activities are intended to place students on a concrete timeline and provide them with the preparation necessary to complete the program within the maximum duration of 5 years. With our current list of primary and affiliate CBS faculty, we intend to encourage students to collaborate with more than one faculty member, either within the CBS Psychology faculty or in collaboration with affiliate CBS faculty in other departments (e.g., Linguistics, SPLH, etc.). Our goal with the revised CBS curriculum is to train students to become productive researchers, by requiring them to carry out, write up, and present their research projects both within (e.g., in classes, proseminar presentations), but also outside (e.g., grant applications, national conferences) of the program. Our new CBS course and research requirements emphasize this goal and are designed to provide students with the background and tools they need to produce high-quality research on their own.

Program Description

Degree Requirements
Certificate students must complete 12 graduate credit hours.

Required Courses (6)

- **EVRN 528** Environmental Justice and Public Policy 3
- or **EVRN 673** Environmental Justice
- or **ISP 673** Environmental Justice
- **EVRN 721** Environmental Regulation and Policy 3

Science and Technology (Choose one) (3)

- **EVRN 730** Environmental Toxicology 3
- or **EVRN 750** Environmental Air Quality Assessment
- or **PRVM 830** Environmental Health
- or **EVRN 745** Environmental Data Analysis and Statistics

Policy, Society, and Ethics (Choose one) (3)

- **EVRN 620** Environmental Politics and Policy 3
- or **EVRN 628** The Politics of Public Health
- or **EVRN 701** Climate Change, Ecological Change and Social Change
- or **ISP 800** Indigenous Issues in the United States
- or **ISP 874** Natural Resource Management: Indigenous Perspectives

Total Hours 12
If a certificate student is already enrolled in a graduate program in the School of Engineering or the School of Journalism and has permission from the graduate advisor, the student may also choose to take one of these courses within that school as an elective:

Catalog Pages Using this Program

Program Description

The certificate requires the completion of one core course (either GIST 701 Approaches to International Studies or GIST 702 Globalization), an elective in a regional area, an elective in a topical area of focus, and one general internationally-focused elective. Students will work with the graduate advisor and graduate director to choose appropriate electives. You can view our certificate checklist here.

Effective Catalog
2018 - 2019

Program Description

Degree Requirements
The new concentration, called the Foreign Affairs Studies (FAS) concentration allows highly motivated students concentration, will allow a student to focus on a specific world region area while earning the Global & and International Studies MA. The primary regional first world area focus to be offered is the Middle East and North Africa. Africa.
The FAS concentration is designed to meet the needs of Army Foreign Affairs Officers (FAOs), but it is also expected to attract civilian students with comparable language training and in-country experience. It will allow such well-prepared students to deepen and diversify their area expertise and, because it will be an intensive program that will run fall-spring-summer, it will allow FAOs to complete the MA within the 12-month constraint set by the Army’s FAO program.

Required (9)
- GIST 701 Approaches to International Studies
- GIST 710 Research Design for International Area Studies
- GIST 898 Thesis & Research Project Writing

Concentration (12)
- 4 regional focus courses

Electives (9)
- 3 regionally-relevant courses

Total Hours
30

Rationale for proposal
Updating language describing program.
