Introduction to East Asian Studies

Transcript Title

Introct to East Asian Studies

Last Term Offered

Fall 2017

Catalog Description

Required of all M.A. students in the Department regardless of concentration. Introduction to resources in East Asian languages and literature.

Prerequisites

None

Cross Listed Courses:

- None

Credits

1

Course Type

Lecture (Regularly scheduled academic course) (LEC)

Grading Basis

A-D(+/-)FI (G11)

Typically Offered

Will this course be required for a degree, major, minor, certificate, or concentration?

Repeatable for credit?

No

Rationale for Course Proposal

Justification for this request

Course has not been offered since Fall 2008 and will not be offered in the future due to faculty interest. Other courses within the department fulfill the subject matter of this course and are being offered regularly. Program changes for EALC M.A. and EALC M.A./J.D. degrees will be submitted to remove EALC 700 from degree requirements.

**Catalog Description**

The goal of this course is two-fold: to introduce students to the academic discipline of Indigenous Nations Studies, its debates and contours, history, methods, and resources; and to develop the skills necessary to proceed successfully through the program. Unpacking key words and terms, critical thinking/reading/and writing skills, and research skills will be emphasized. Guest lectures will serve to complement and broaden assignments and discussions.

**Catalog Description**

Students will analyze the qualities of American Indian leadership and will examine circumstances and backgrounds of Indian leaders as heroes and role models paying particular attention to how they responded as individuals, leaders, and as community members of their tribes. Besides surveying noted Indian leaders in treaty negotiations, allotment, removal, war, etc., the course will examine leaders in medicine, education, and recent American Indian history including attention to women leaders. Students will learn about the leaders' tribes and cultures in addition to understanding the ethnohistory of Indian-white relations.

- Course Number: 809
- Academic Unit: Department of Indigenous Studies
- School/College: College of Liberal Arts & Sciences
- Title: Indigenous Women: Gender and Sexuality
- Transcript Title: Indigenous Women: Gender and Sexuality
- Last Term Offered: Fall 2017

Catalog Description:
This course examines gender and sexuality among indigenous communities in the world. Ethnographies about indigenous women are used to explore a variety of gender and sexual identities. Gendered and sexualized identities are analyzed within broader societal contexts such as the division of labor, kinship, marriage household, and the control of resources. Power relationships are examined between subaltern women and the larger society, nation and globalizing world in which they play a part.

**Catalog Description:**

With the decolonizing potential of Indigenous literary and cultural productions, this course seeks to both answer and explore such questions as: How can literary and cultural texts such as novels, poetry, music, and film from world Indigenous communities function as decolonizing tools? Can decolonizing methodologies be applied to such texts? How do such texts contribute to and strengthen Indigenous political, intellectual, cultural, visual and rhetorical sovereignty? An overview will be presented from Indigenous literature, films and documentaries from North America, the Pacific, Australia, and New Zealand.

### Catalog Description

A discussion of the importance of the oral tradition in Indigenous nations and the difference between oral tradition and oral histories and myth. The class will concentrate on the methodologies of tribal oral history projects, from organizational aspects to personnel issues, equipment needed, sources of grant funding, interview methodology, as well as documentation and preservation of the interviews. The course will discuss how to share and make available these interviews and when access to them needs to be restricted. The students will conduct videotaped oral histories as part of the class exercises and get hands-on experience with the preservation, organization, and transcription of oral history projects.

Catalog Description
A discussion of the community models of museum management, including museum administration, professional positions within a museum, museum exhibits, public education programs, security, and disaster planning. The course will compare and contrast museum management in European/American museums and tribal museums and how these management styles affect collection policies, exhibit policies, traditional care of collections, sacred and ceremonial item handling and display, NAGPRA and repatriation, and oral histories.

Prerequisites

Program Description

Ph.D. Degree Requirements

The Doctor of Philosophy in American Studies requires the completion of eight courses (24 credit hours), the comprehensive examination, enrollment in dissertation hours, and the dissertation. In consultation with the faculty advisor, the student develops a plan of work that will provide expertise in three concentration fields of study. The comprehensive examination certifies the student's preparation in the concentration fields, and readiness to conduct research at a professional level. PhD students earn the MA in American Studies while pursuing the doctorate, upon completion of their course requirements and the defense of a publishable article. The PhD program culminates in the completion and defense of the dissertation.

Core Courses (12)

- **AMS 801** Introduction to American Studies (offered every fall)  
- **AMS 802** Theorizing America (offered every fall)
AMS 803  Research Methods in American Studies (offered every spring)  3
AMS 804  Research Seminar (offered every fall)  3
Graduate Seminars (9)  3
3 seminars numbered 700 or higher  9
Research Skills Course (3)  
1 elective methods course selected by the student and advisor to provide methodological support for the student’s program of research. Along with AMS 803, this course fulfills the Research Skills and Responsible Scholarship requirement (RS2).

MA in American Studies. Upon completion of PhD course requirements, the student presents a publishable article manuscript and defends it to a committee. The committee assesses the manuscript and oral defense with a grade of Pass or No Pass, by majority vote. This defense serves as an exam for the MA in American Studies. Students who are admitted to the doctoral program already holding the MA in American Studies or a closely related field may petition the Department to waive this requirement and proceed without undergoing the article defense and earning an additional MA. Such a waiver of the MA in American Studies is at the discretion of the Graduate Committee.

Transition from the MA Program. Students admitted to the MA in American Studies at KU must petition the Department if they wish to continue for the PhD. This requires an internal application process, including the submission of a research statement and letter of support from a KU American Studies faculty member. All admissions to the PhD program are at the discretion of the Graduate Committee.

Comprehensive Examination. Following the completion of required courses, the student enrolls in AMS 997 Examination Preparation to prepare for the comprehensive examination. In consultation with the faculty advisor, the student may also enroll in additional seminars or directed readings courses to prepare. When the advisor deems the student prepared, the student may apply to the Department to take the comprehensive examination, which is in two parts. The student must first sit for a time-limited, open-materials written examination to qualify for the oral. With a passing grade on the written examination, the student may sit for the oral examination before the examination committee. Candidacy is conferred after a successful oral examination.

Dissertation. The dissertation must be an original work of research that advances the interdisciplinary field of American Studies. The student must submit a brief prospectus of the dissertation project, including a detailed plan of work. All members of the dissertation committee must endorse the prospectus in order for the project to go forward. Upon completion of the dissertation research the student must defend the dissertation before all committee members in the “final oral examination,” or dissertation defense. The student satisfies the dissertation requirement with a majority vote of “Satisfactory” by the dissertation committee. The committee may also recommend the student for Honors, which is a designation conferred by the Department at graduation.

University Requirements. Throughout the course of doctoral study, the student must fulfill all relevant College and University policies, such as those concerning doctoral residency, time constraints, continuous enrollment, human subjects review, electronic filing, and graduation. Handbook. Further details about meeting the degree requirements can be found in the Department’s Graduate Handbook.

**Program Description**

**Degree Requirements**

**M.S. Degree Requirements**

Details of the regulations on graduate study are included in the department’s Ground Rules for Graduate Students, that is made available to admitted students online through Blackboard.
Prerequisites normally include credit in one year each of general biology, general chemistry, general physics, and calculus, plus junior- or senior-level courses in mineralogy, petrology, structural geology, paleontology, stratigraphy, geophysics, and a summer course in field geology. Students planning to specialize in geophysics also should have more advanced backgrounds in calculus and physics. Incoming graduate students meet with a departmental advisory review committee before enrollment to identify deficiencies and strengths and to set up curricula aimed at providing a broad background in geology at the intermediate to advanced level during the first year. Some deficiencies may be waived at this time if they are deemed nonessential.

Geology has many subdisciplines, and the department tailors each student’s curriculum to the needs of the individual. There is no departmental core curriculum or list of required courses.

**Thesis Option (M.S. Degree)**

The master’s degree curriculum requires completion of 30 credit hours, including up to six credit hours for thesis research, and an acceptable master’s thesis. The student sets the curriculum in consultation with a 3-member advisory committee selected from the Graduate Faculty and approved by the Graduate Advisor. Course work counted toward the degree must be distributed to provide a comprehensive general knowledge of geology in addition to specialized knowledge required for the thesis. It may include courses in departments other than Geology. Although the Department of Geology does not award a master’s degree in geophysics, students can specialize in geophysics at the master’s level. The requirements for the degree are overseen by geophysics faculty within the Department and scientists on the staff of the Kansas Geological Survey. Geophysics research projects are also supervised by Departmental geophysics faculty and scientists on the staff of the Survey. Similar arrangements with faculty outside the Department can be made for students specializing in geobiology, glaciology, hydrogeology, paleontology, sedimentology, or tectonics.

Students seeking to earn an M.S. in geology must maintain at least a 3.0 grade-point average in geology and supporting science courses and pass a final oral general examination with emphasis on the areas of geology relevant to the thesis project.

**Nonthesis Option (M.S. Degree)**

A student may complete an M.S. degree program based primarily on course work and specialized skills. For this degree, a minimum of 36 credit hours of graduate-level study must be completed, including two written reports based on small projects (non-thesis with projects) or a single written report on a prescribed topic (non-thesis without projects). The student determines the structure of the curriculum and projects in consultation with an advisory committee of 5 faculty members. A student must declare an intention to follow the nonthesis option during the first semester of graduate study. The nonthesis degree is a terminal degree and normally cannot lead to doctoral study. In addition to maintaining a 3.0 grade-point average in course work, the student must demonstrate proficiency in the areas of geology covered by the program. This is accomplished by satisfactory performance on a series of written examinations assembled and administered by the advisory committee (non-thesis with projects) or an oral examination (non-thesis without projects). These constitute the final examination for the degree and may be repeated once, if necessary.

During or after the period of residence, a student who wishes to change to an M.S. (thesis) program or a Ph.D. program must petition the Geology Graduate Studies Committee.

There was an incorrect sentence under Thesis Option. This sentence was removed from that section. It stated that the final oral exam could be repeated if necessary. The oral exam for the MS Thesis Option cannot be repeated. The oral exam for the Nonthesis option can be repeated.

Program Description

Degree Requirements

Program Requirements

For the Ph.D., the student must complete all general degree requirements, including residence, training in research skills and responsible scholarship, the written preliminary examination, the comprehensive oral examination, preparation of a dissertation, and the final oral examination.

Each student designs his or her own curriculum with the assistance of a support committee of 3 gerontology faculty members. All students are expected to acquire multidisciplinary training in gerontology by taking courses in the sociology, psychology, and biology of aging.

Students may enter the program with an acceptable master’s degree from KU or another institution. The admissions committee reviews master’s-level preparation for doctoral-level research. An acceptable level of preparation includes basic training in statistics, program assessment, or policy analysis and completion of an empirical research study or thesis.

Students entering the program without an acceptable master’s degree must complete the M.A. in gerontology before the Ph.D.

The requirements for the M.A. in gerontology are as follows:

- Multidisciplinary Perspectives on Gerontology and Aging (SOC 767)
- Gerontology.proseminar6 hours of core courses in gerontology (selected from at least 2 of the following areas: biology of aging, psychology of aging, social gerontology)
- 12 hours of supplemental courses in gerontology and related fields
- 6 hours of basic statistics courses
For students who enter the program with master's degrees or who complete the M.A. in gerontology, minimum requirements for the Ph.D. are as follows:

- **Multidisciplinary Perspectives on Gerontology and Aging (SOC 767)**
- **Gerontology proseminar** At least 6 hours of core courses in gerontology (selected from at least 2 of the following areas: biology of aging, psychology of aging, social gerontology)
- At least 12 hours of additional supplemental courses in gerontology and related fields
- 6 hours of advanced statistics courses
- 6 additional hours of methodology
- Completion of written and oral comprehensive examination
- 6 hours of dissertation credit, completion of dissertation, and final oral examination

A list of courses meeting requirements in gerontology, statistics, and methodology is available from the graduate advisor.

**Evaluation of Satisfactory Performance**

**Multidisciplinary Perspectives on Gerontology and Aging (SOC 767)**, The gerontology proseminar and core courses should be completed during the first 2 semesters. Students normally are expected to complete the M.A. degree in 2 years. The maximum time limit for completing all requirements for the M.A. degree is 3 years. Students normally are expected to complete the Ph.D. within 3 years of entering the program or of completing the M.A. The maximum time limit for completing all requirements for the doctoral degree is 8 years after admission to the doctoral program with an acceptable master’s degree or after completion of the M.A. degree in gerontology. Students who complete the M.A. degree in gerontology at KU and subsequently begin doctoral studies have a total enrolled time of 10 years to complete both degrees.

**Written Preliminary Examination**

Upon completion of the M.A., a major portion of the course requirements, and the research skills and responsible scholarship requirement, each student must pass a written preliminary examination. This examination covers two content areas reflecting the student’s area of concentration and integrates theoretical and methodological issues in gerontology.

**Comprehensive Oral Examination**

The comprehensive oral examination covers gerontology. The examination can take one of 5 forms:

A. A defense of the written preliminary examination,
B. A defense of a completed research project,
C. A defense of a prospectus for a future research project, including the dissertation,
D. A discussion of a major review paper written by the student,
E. A review of a research grant proposal and a simulated site visit defense of the proposal.

**Dissertation Preparation and Final Oral Examination**

Upon passing the comprehensive oral examination, the student becomes a candidate for the doctorate. Graduate Studies designates a dissertation committee based on the recommendation of the program. The dissertation committee includes at least three members of the gerontology program faculty. After passing the comprehensive oral examination, the candidate must be continuously enrolled until all degree requirements have been met. When the completed dissertation has been accepted by the committee, but before it has been bound, and all degree requirements have been met, the program requests the final oral examination to be scheduled, allowing a minimum of 2 weeks to verify the requirements and publicize the examination. At least 5 months must elapse between successful completion of the comprehensive oral examination and the final oral examination.

**Research Skills and Responsible Scholarship Requirement**

Doctoral students must demonstrate competence in a research skill “distinct from, but strongly supportive of, the dissertation.” The program advisory committee establishes requirements for research skills, including the following options:

A. Demonstrated competency of a language, other than English, relevant to research in gerontology;
B. Competency in research methodology, including quantitative and/or qualitative data analysis;
C. Competency in both computer programming skills and computer applications.
D. A record of professional experience, publication, or presentation at professional meetings or a record of course work in a substantive area such as statistics beyond that required to satisfy the master's or doctoral degree requirements in gerontology.

E. Successful completion of SPLH 982/PSYC 982 with a grade of B or higher.

Doctoral students are required to have training in responsible scholarship. Such topics may include protection of human subjects; welfare of laboratory animals; conflicts of interest; data management; mentor/student responsibilities; collaborative research; authorship, publication, plagiarism, copyright; peer review; professional practices; maintenance of confidentiality; and appropriate research conduct and research misconduct.

Please contact your advisor or the Director of Graduate Studies for more information about the Research Skills & Responsible Scholarship requirement. More information can also be found in the departmental Graduate Student Handbook.

**Research Experience**
All students are expected to be continuously involved in research under the supervision of the graduate advisor and support committee. Research involvement includes the design, execution, and dissemination of research on aging.

**Courses**

Cooperating departments and schools list courses related to aging. See the [website](https://next.catalog.ku.edu/courseleaf/approve/) for course listings from recent semesters.

**Rationale for proposal**

Requirements have been updated to reflect the pending course change for SOC 767 (Same as ABSC 787, AMS 767, COMS 787, and PSYC 787) which changes the course title from "Gerontology Proseminar" to "Multidisciplinary Perspectives on Gerontology and Aging"
## Program Description

### Degree Requirements

#### M.A. Degree Requirements

The student must complete 30 hours of graduate credit, at least 21 of which must be in art history distributed according to department requirements (see department website). Students pursuing the degree in European/American art must take at least 18 credit hours at the 700-900 level 6 hours of which must be taken at the 800 level or higher. Students pursuing the degree in East Asian art history must take at least 15 credit hours at the 600 level or higher, 6 hours of which must be taken at the 800 level or higher (see department website for specifics). All course work must satisfy grade standards. The candidate must demonstrate proficiency in the reading of a foreign language, normally a major European language, Chinese, Korean, or Japanese.

A general written examination (in European/American art or East Asian art) must be passed for the M.A. degree. M.A. students who wish to be considered for admission to the Ph.D. program must complete and sign the Petition for Continuation in the Ph.D. Program form, which will be distributed at the M.A. exam and collected with the completed exam essays on day two of testing. It is expected that such students will already have expressed this interest to a potential major field advisor and received that faculty member's support.

The student must pass the M.A. exam in order for his/her petition to be considered by the graduate faculty. After receiving departmental approval for the petition and completing all M.A. degree requirements, the student will automatically be entered into the Ph.D. program and will be expected to maintain his/her enrollment as per Graduate Studies guidelines. Students who do not submit the petition at the time of the M.A. exam will need to reapply for admission to the art history graduate program.

The Combined M.A./Ph.D. student does not need to submit the Petition for Continuation in the Ph.D. Program form. The student will be evaluated by the graduate faculty upon passing the M.A. exam to determine whether he/she remains eligible to continue to the Ph.D. or if the M.A. is the appropriate terminal degree.
Handbook for Graduate Students

A detailed presentation of departmental degree requirements and regulations is included in the department’s Graduate Student Handbook, available online.

<table>
<thead>
<tr>
<th>Rationale for proposal</th>
<th>The format of the M.A. exam has changed to four hours taken on the same day rather than two hours taken on two consecutive days. Removing wording referring to the two day exam format.</th>

Program Description

The Department of Geography and Atmospheric Science in the College of Liberal Arts and Sciences proposes to create a new graduate certificate program in Geographic Information Science (GIScience).

Geographic information systems (GIS) consist of computer hardware, software, data, and people that are used to capture, manage, analyze, display, and distribute all forms of geographically referenced information. Effective use of GIS has evolved into a requisite skill in most academic research, as well as for agencies in both the public and private sectors. Graduate students from such varied disciplines as geography, atmospheric science, biology, engineering, economics, urban planning, landscape architecture, and sociology benefit from applying GIS and related technologies such as global positioning systems (GPS), remote sensing, spatial statistics, and computer programming to input, analyze, model, and display (map) location-based data. As such, it has found wide applications in the sciences and engineering, as well as in business, government, military, and consumer areas.

The proposed certificate program is designed to provide graduate students with the knowledge and skills necessary to succeed in the rapidly expanding field of
GIScience or apply GIScience concepts in their own field of study. The graduate certificate program complements the existing M.A., M.S., and Ph.D. degrees and builds upon the existing graduate concentrations in GIScience within the department.

Degree Requirements
A total of 12 credit hours are required to earn the certificate. Only one course outside of the Department of Geography and Atmospheric Science may be included in these 12 credit hours. Course requirements include the following:

Select 2 of the 3 core GIS courses (6-7 credit hours) listed below:

- GEOG 528 Spatial Databases 3
- GEOG 558 Intermediate Geographical Information Systems 4
- GEOG 560 GIS Application Programming 3

Core courses may be waived and replaced with approved electives in cases where students have completed the same course for undergraduate credit. Select an additional 5-6 credit hours of electives from the following:

- ATMO 642 Remote Sensing 3
- GEOG 512 Advanced Cartography and Geovisualization 4
- GEOG 518 Geoinformatics Internship 1-3
- GEOG 526 Remote Sensing of Environment I 4
- GEOG 648 Location Modeling 3
- GEOG 658 Topics in Geospatial Technologies: _____ 1-6
- GEOG 716 Advanced Geostatistics 3
- GEOG 726 Remote Sensing of Environment II 4
- GEOG 758 Geographic Information Science 3
- GEOG 898 Readings in Geography 1-4

Any graduate-level GIS application course from another department/school (in consultation with advisor)

Or, a third core course from the core GIS courses listed above

At least once per year students are required to meet with the certificate Director to discuss progress in the program.

A student can take no longer than 4 years to pursue the certificate unless a leave of absence or other extenuating circumstances are present. In either event a petition letter must be submitted to the Director during the 4th year of enrollment.

Credit hours for GEOG 758 have been changed from 4 to 3.
